

BG Distributing is proud to announce the much anticipated availability of RST to the United States market.

RST can trace its history back to 1988 with a simple idea, to produce a range of motorcycle clothing that offered exceptional value and quality combined with cutting edge design and style. RST started with a range of gloves and has built over the years into not only the UK's number one, but also a globally recognized brand offering all types of motorcycle clothing.

RST's core values remain the same, and this philosophy and history can be seen in every RST product. All RST's products are designed and developed out of our HQ in Derbyshire, England. We test all of our products ourselves and do an enormous amount of road and track miles every year to ensure we are happy to add every new product to the RST range.

Whether it's developing our own armor system in the "RST Contour Plus," sourcing new and unique materials, thread or zips, or producing innovative products, if there is a better way to do something the RST team is always striving to push forward and improve. That's why RST is the most heavily represented brand in the British Superbike paddock, and has had World Championships with Andrew Pitt (who still remains a part of the RST development team) and multiple national champions in the UK, Australia and South Africa.

RST PRO SERIES CPX-C ONE PIECE RACE SUIT

The new Pro Series Carbon 1pc race suit has been developed throughout 2012 with the help of the best riders in the BSB paddock, namely Tommy Hill, Jon Kirkham, and Stuart Easton. The new Pro Series Carbon 1pc race suit takes what has been the most popular suit in the BSB paddock to another level with the introduction of the new CP-X carbon shoulder and knee protection. The use of carbon, which has an extremely low co-efficient of friction, helps divert energy away from the collarbone and knees in the event of a fall.

The Pro Series Carbon has a professional full race cut with space for a full-length back protector. Even the minor details such as knee slider position have been carefully designed to make sure the suit performs at the highest level. The Pro Series Carbon has large full-length Keprotec stretch panels and large leather stretch areas for superb ergonomics on the bike. Security is achieved with triple stitched seams using the strongest bonded nylon and titanium needles (for minimum stitch hole-size), double leather in the seat, and the highest quality grade A full grain Brazilian drum dyed cow hide throughout.

The first time you put a Pro Series Carbon on you instantly see why RST is the most popular brand in BSB.

Colors: Blue, Flourescent Red, White
MSRP \$799.99 -- 38US/48EU - 50US/60EU -- Model 1015

SPECIFICATION:

- 1.1-1.3 mm premium grade, full grain and drum dyed Brazilian cow-hide
- CP-X Carbon shoulder and knee protection
Maurex C.E. approved armor to shoulders, elbows and knees
- DuPont™ KEVLAR® fiber stretch panels used throughout
- RST racing compound knee sliders
- Chamud comfort lining to collar and cuffs
- Triple and double stitched seams using 40's grade bonded nylon thread for maximum burst strength
- YKK zippers throughout
- Perforated panels and Airtex lining for hot weather comfort.

RST TRACTECH EVO ONE PIECE SUIT

New for 2013 is the Tractech EVO one piece suit, we've taken the best of the Tractech R, and restyled and recut it to give the suit a racier edge. The Tractech EVO has a more aggressive track focused cut but still features an integrated CE Level-1 back protector and new internally stitched CP-X external shoulder sliders.

If track days and fast road riding are your focus, then look no further than the Tractech EVO. We've put over 500 hours of track time development into this suit and we're confident you'll feel the difference the first time you put the Tractech EVO on!

Colors: Red, Black, Green
MSRP \$649.99 -- 38US/48EU - 50US/60EU -- Model 1003

SPECIFICATION:

- 1.1 - 1.2mm premium grade cowhide
- Triple & double stitched seams using 40's grade bonded nylon for maximum burst strength
- Full length RST CONTOUR 4 way stretch panels
- RST Contour Plus CE approved armor to shoulders, elbows and knees
- RST Contour Plus CE level-1 back protector
- CP-X internally stitched shoulder sliders
- Aerodynamic race hump
- New dual compound knee slider

RST TRACTECH EVO LEATHER JACKET

Traditionally two-piece suits come already zipped together and usually have a jacket that's so short you could never wear it on its own. Well here at RST we do things differently. The new Tractech EVO, although designed as a two-piece is available separately, meaning you can mix and match sizes and wear either the jacket or pants with any other garment in the RST collection (we use the same length joining zips on all the sizes!) The jacket is a full length sports leather jacket that looks just as good as a two-piece as it does with KEVLAR® fiber pants, the features of the jacket and pant are identical to the Tractech EVO suit but with the added practicality of a removable thermal lining in the jacket.

The Tractech EVO jacket and pants are perfect for track days and fast road riding, and the sporty design gives the professional look.

Colors: Black, White
MSRP \$329.99 -- 38US/48EU - 50US/60EU -- Model 1017

SPECIFICATION:

- 1.1 - 1.2mm premium grade cowhide
- Triple & double stitched seams using 40's grade bonded nylon for maximum burst strength
- Full length RST CONTOUR 4 way stretch panels
- RST Contour Plus CE approved armor to shoulders, elbows and knees
- RST Contour Plus CE level-1 back protector
- CP-X internally stitched shoulder sliders
- Aerodynamic race hump
- New dual compound knee slider
- Max zips used throughout
- 360 heavy duty connection zip available separately

RST TRACTECH EVO LEATHER PANT

Traditionally two-piece suits come already zipped together and usually have a jacket that's so short you could never wear it on its own. Well here at RST we do things differently. The new Tractech EVO, although designed as a two-piece is available separately, meaning you can mix and match sizes and wear either the jacket or pants with any other garment in the RST collection (we use the same length joining zips on all the sizes!) The jacket is a full length sports leather jacket that looks just as good as a two-piece as it does with KEVLAR® fiber pants, the features of the jacket and pant are identical to the Tractech EVO suit but with the added practicality of a removable thermal lining in the jacket.

The Tractech EVO jacket and pants are perfect for track days and fast road riding, and the sporty design gives the professional look.

MSRP \$239.99 -- 38US/48EU - 50US/60EU -- Model 1031

SPECIFICATION:

- 1.1 - 1.2mm premium grade cowhide
- Triple & double stitched seams using 40's grade bonded nylon for maximum burst strength
- Full length RST CONTOUR 4-way stretch panels
- RST Contour Plus CE approved armor to shoulders, elbows and knees
- RST Contour Plus CE level-1 back protector
- CP-X internally stitched shoulder sliders
- Aerodynamic race hump
- New dual compound knee slider
- Max zips used throughout
- 360 heavy duty connection zip available separately

RST PRO SERIES CPX-C LEATHER

Colors: Black, White
MSRP \$109.99 -- S/8 - 12/XXL -- Model 1571

The Pro Series CP-X Carbon is without a doubt the best race glove we've ever made! We put everything we know about gloves into the Pro Series, the specs are off the scale! The Pro Series glove has a super supple kangaroo leather palm that uses KEVLAR® fiber stitching in all the vulnerable areas. The body of the glove is lined with KEVLAR® and the fingers are pre-curved and out-stitched for maximum dexterity and feel. If you love your hands the Pro Series is the glove for you.

SPECIFICATION:

- Kangaroo palm and premium grade cowhide construction
- KEVLAR® thread used in main impact areas
- KEVLAR® lined
- DuPont™ 'Coolmax' lining
- Double wrist and cuff closure for secure fit
- Double layer leather in palm area
- Vented split Carbon Fiber CP-X knuckle
- Silicon 'Powergrip' on fingers for secure grip
- Pre- curved fingers
- Outstitched fingers
- SUPERFABRIC finger joint protection

RST TRACTECH EVO LEATHER GLOVE

We've taken last years incredible Tractech glove and given it the EVO treatment. The Tractech EVO is perfect for riders that want a race/sports glove without some of the pure race features you'll find on the Pro Series. The Tractech EVO is a race/sports glove you can wear all day. The strong but lightweight construction gives superb feel and helps keep your hands cool. The glove still has KEVLAR® fiber thread, and a KEVLAR® re-enforced palm and serious sports credentials like the split carbon knuckle.

SPECIFICATION:

- Premium grade A aniline cowhide construction
- KEVLAR® thread used in main impact areas
- KEVLAR® lined palm panels
- Double wrist and cuff closure for secure fit double layer leather in palm area
- Split Carbon fibre knuckle
- Silicon 'Powergrip' on fingers and palm for secure grip
- Pre-curved fingers
- Outstitched fingers
- Conjoined fourth and little fingers
- Finger joint protection

Colors: Black, White

MSRP \$99.99 -- S/8 - 12/XXL -- Model 1579

RST TRACTECH EVO CE SPORT BOOT

The Tractech Evo boot is built for riding a sportsbike and has all the protection you'd expect. In fact, the Tractech Evo is fully CE certified to EN13634. Protection comes from molded TPU shin, ankle, and heel protection and the boot features an anti-slip multi density sole, ensuring excellent grip on the footpegs.

So if you're racing, doing track days, or just riding your sports bike on the road, the Tractech Evo is the boot you need.

SPECIFICATION:

- Pu coated micro-tech construction
- Molded TPU shin, ankle and heel protection
- Molded anti-twist mid sole
- Race spec aluminum toe sliders
- Vulcanized, anti-slip multi-density rubber sole
- Gear change toe pad
- Vented toe-box panel
- Vented heel cup heavy duty max zip and velcro closure
- Calf stretch panel
- Race cut
- CE certified en13634

Colors: Black, White
MSRP \$199.99 -- 6US/40EU - 12US/47EU -- Model 1516

RST TECH-X MULTISPORT UNDERGARMENTS

Colors: Black
MSRP \$54.99 - \$99.99 -- XS - XXXL -- Model 0031

RST Tech-X technical wear has been designed to keep you comfortable even in the most demanding conditions.

Suitable for a wide variety of sport and leisure applications, Tech-X technical wear's CP-U fabric has outstanding moisture wicking properties keeping your skin temperature regulated. In hot conditions, the CP-U fabric quickly draws perspiration away from the skin keeping you dry and comfortable. In cool conditions, the same wicking properties help maintain skin temperature keeping you warmer for longer periods of time.

Tech-X technical wear is the perfect undergarment choice for any activity or pursuit that challenges the body.

Tech-X technical wear has been designed and tested in toughest conditions and is available in one-piece undersuit, long-sleeve top, and full length pant options.
